

## You Do Not Despise

Jamie Lipe

Take me into Your heart where I will find peace again  
I've been broken through and through  
Crushed in spirit and soul

And I go to You with nothing  
And yet I walk away with everything  
I run to You and find everything I could ever need

Draw me deeper past the rain  
Where my eyes can see again  
I long for reality  
That place where You come and heal me

You do not despise a broken heart  
You do not despise a broken heart  
You're attracted to all of me  
'Cause you love me, love me
